

ON TIME MOVING & STORAGE

LOCAL MOVING TIPS

NEVER GIVE A MOVER A DEPOSIT

- 95% OF ALL MOVING SCAMS ARE DONE OVER THE PHONE, VIA INTERNET (EMAIL), AND FAX!!!
- Always make sure that when getting other estimates, the company sends someone out to give you a physical estimate. Estimates over the phone or by email are not BINDING and the price most of the time will increase.
- It is okay to leave clothes in your chests and dressers. Remove any breakables or heavy items.
- Designate a place for items that you do not want the mover to touch. (Best place is in the car or bathroom)
- For electronic systems: use a camera to take pictures of how wiring is hooked up for computers, surround sound, televisions and other electronics. Or scotch tape and label each wire and where it goes.
- Make sure movers have all cell phone numbers and that your phone is fully charged to stay in contact.
- Donate or throw out items you haven't used in a while. Why pay to move something that's not going to get used!
- Back up files on the computer just in case something happens during the move.
- Plan and measure where your furniture will be placed in your new home.
- To save time move your boxes from the upstairs or attic to the main floor before the move date. Consider carrying items from the back yard to the front yard ahead of time
- If a flat rate price is chosen on your move we are expecting you to be organized and ready for the crew. Any boxes not ready to be moved will not be taken or you will incur additional charges.
- Any abnormal pieces such as: Large statues, safes or large rocks that are being moved must be noted prior to the move.
- PAYMENT: Local check, Visa & Mastercard, Cash
- Due to nature's unpredictability we may not be able to move you under certain circumstances such as heavy wind, heavy rain, and hurricanes. However, we will do everything possible to get your move done as soon as possible.
- Any gasoline should be emptied from items we are moving.
- Outside furniture should be clean and dry. BBQ grills should be empty (charcoal, grease, tanks)
- The movers are not permitted to go into the attic for safety reasons.
